## Scope Of Work

Byrne & Jones Construction is pleased to quote the following price and scope for the above referenced project:

### General Conditions

- Includes all supervision throughout the durations of the project.
- Includes all surveying and layout for all work associated with the project.
- Includes temporary facilities for duration of the project.
- Includes utility locates for all public and private locates within the construction area.
- Includes straw waddles and gutter/inlet protection throughout the duration of the project.

### Demolition

- Remove existing track surface and asphalt track asphalt approximately 4" from existing elevations. All material to be hauled offsite and disposed of properly.
- Includes removal of existing track surface and d zone and runways. D Zone and runways are not included in asphalt paving scope of work.

### Storm Sewer

- Supply and install 4 – precast catch basins at an elevation approximately 3-4' below finish grade. Locations TBD. Includes installation of 6" DW HDPE pipe to tie into existing structure.
- Supply and install 1418 LF of 4" underdrain around inside perimeter of running track. Underdrain to tie into existing structures outside of the running track area.

### Asphalt Paving – 5254 SY

- Supply and install 2-4" of #304 limestone aggregate. Slope per final design elevations to meet NFHS specifications.
- Supply and install 2" of ODOT PG64-22 Type 2 intermediate course asphalt on all track areas including track oval, chutes, and steeple chase.
- Supply and install 2" of ODOT PG64-22 Type 1 surface course asphalt on all track areas including track oval, chutes, and steeple chase. \*\*\*\*Asphalt mix to be virgin material free of pyrites and RAP.

### Concrete for Track Curbing, and Bleacher Pad Tie's

- Form and pour 1557 LF of 6" x 12" concrete curb for perimeter track curb elevations.
- Form and pour new 343 SF - 5" of stone/5" of 4000 PSI Concrete with 1lb. commercial fiber mesh per CY for entryway tie-ins to new curb.

### Site Restoration

- Regrade, seed, and straw any area disturbed during construction.
- Includes final site cleanup and Owner training on warranty and maintenance.

**BASE BID PRICE Including Bond: \$536,865.00**

**TOTAL PROJECT COST through TIP Purchasing: \$547,238.00**
