

Support Services Committee Meeting Minutes

Friday, April 25, 2025

TCS Administration Building

Attendance: ☒ Dustin Williams, ☐ Meagan McBride, Ph.D., ☒ Bill Beaston, ☒ Robert Boes,
☐ Randy Conger, ☒ Greg DeVore, ☒ Natallie Jones, ☒ Colleen Neely, ☒ Kara Rannigan,
☐ Weston Reinbolt, ☒ Bradley Scheiber, ☐ Brad Streng, ☒ Jerry Nadeau

Guests:

Dustin Williams called the meeting to order at 8:00 AM on Friday, April 25. He asked everyone to read the minutes and get any corrections/changes to Pat.

Colleen Neely gave the Food Service Department Report which included the following topics:

1. CEP (Community Eligibility Provision). The numbers show the school can continue to offer free lunches. This status is locked in for 3 years.
2. S-EBT (Summer EBT Program). For qualifying students, their family received \$40.00/month over the summer to help pay for food. Families that qualify for free or reduced lunch base on income will receive the money. This is paid per child in the family. Information flyers must be sent to all families.
3. The salad bar usage is increasing, especially among the adults.
4. Grab and Go meals are being studied for the high school students. Hopefully this will keep the students in the building over lunch.
5. Menu changes over the next month will be necessary. This is to use up food in storage and to help keep the cost down. Some food items jump up in price this time of year and other drop. To equal out these expenses, changes in the menu need to be made.

Brad Streng was unable to attend thus no technology report was available.

Randy Conger had nothing that needed to be presented about transportation at this time.

Greg DeVore presented the following topics:

1. Studying the replacement of the football field and what the final field will look like. Needs to meet the needs of high school and college requirement.
2. The TMS cafetorium improvements will be pushed back to 2026 because no bids were submitted. The changes/improvements being made are not a safety hazard, thus waiting another year and putting the bid announcements out in the fall of 2025 would allow companies to plan for the next spring.
3. Greg is looking at summer work schedules, supplies needed and classroom needs.

Jerry Nadeau explained that the new bus being purchased will be tagged and used for disabled students. Thus, of the \$92,000 cost for the bus, approximately \$70,000 can be utilized from IDEA Grant funds. Afterschool the bus can be used as a regular bus, if not needed for handicapped students.

Dustin adjourned the meeting at 8:15 AM.

Next Meeting Date, August 29, 2025
Administration Building Conference Room
Time: 8:00 AM
